TO VOLUME 43

SUBJECT INDEX

Abortion
Abortion incidence and access to services in the United States, 2008, Jones RK and Kooistra K, p. 41.

Giving oral contraceptive users a one-year pill supply is linked to decreases in pregnancy and abortion, see **Oral Contraceptives**.

Hanging tough on abortion, FYI, p. 77.

Home-based and clinic-based medication abortions may be equally safe and effective, Digest, p. 206.

In UK trial, women seeking second-trimester abortion favor surgical over medication procedure, Digest, p. 70.

Legal abortion worldwide in 2008: levels and recent trends, Sedgh G, Singh S, Henshaw SK and Bankole A, p. 188.

Medication abortions among New York City residents, 2001–2008, Yunzal-Butler C, Sackoff J and Li W, p. 218.

Risk of mental disorders does not rise following a first-trimester abortion, Digest, p. 130.

Social sources of women's emotional difficulty after abortion: lessons from women's abortion narratives, Kimport K, Foster K and Weitz TA, p. 103.

Will the doctor do it? FYI, p. 216.

Working with Dr. Tiller: staff recollections of Women's Health Care Services of Wichita, see **Service Providers.**

Contraception: General
Modern contraceptives are supported by almost all U.S. obstetrician-gynecologists, see **Service Providers.**

Contraceptive Practice
Adolescent mothers' postpartum contraceptive use: a qualitative study, see **Teenagers.**

Characteristics related to effective contraceptive use among a sample of nonurban Latinos, Warren JT, Harvey SM and Bovbjerg ML, p. 255.

Contraceptive choices for the new mother, FYI, p. 140.

Not filling the bill, FYI, p. 141.

Race, ethnicity and differences in contraception among low-income women: methods received by Family PACT clients, California, 2001–2007, Dehlendorf C, Foster DG, Thiel de Bocanegra H, Brindis C, Bradsberry M and Darney P, p. 181.

Racial and ethnic disparities in contraceptive method choice in California, Shih G, Vittinghoff E, Steinauer J and Dehlendorf C, p. 173.

Relationship characteristics and contraceptive use among young adults, Manlove J, Welti K, Barry M, Peterson K, Schelar E and Wildsmith E, p. 119.

Women want postabortion contraception, but clinics face barriers adding services, see **Service Providers.**

Emergency Contraception
The not-five-day-after pill, FYI, p. 216.

Europe
For single Europeans, vacation often includes risky sexual behavior, see **Sexual Behavior.**

In UK trial, women seeking second-trimester abortion favor surgical over medication procedure, see **Abortion**.

South Asians living in Britain diverge over views on first sex, see **Sexual Behavior.**

Evaluation of Programs
A comparative study of interventions for delaying the initiation of sexual intercourse among Latino and black youth, Guilamo-Ramos V, Jaccard J, Dittus P, Bouris A, Gonzalez B, Casillas E and Banspach S, p. 247.

Government Policy, Programming and Funding
The public costs of births resulting from unintended pregnancies: national and state-level estimates, Sonfield A, Kost K, Gold RB and Finer LB, p. 94.

Unintended pregnancy and taxpayer spending, Monea E and Thomas A, p. 88.

Hormonal Implants and Injectables
Women's injectable use associated with elevated risk for HIV infection and transmission to men, Digest, p. 263.

Intrauterine Devices
Another benefit of IUD use? FYI, p. 216.

IUD provision may depend on family physicians' training, knowledge and attitudes, Digest, p. 132.

Males
Coercive forms of sexual risk and associated violence perpetrated by male partners of female adolescents, see **Teenagers**.

Getting a handle on a hidden population, FYI, p. 76.

Many men 75 and older consider sex important and remain sexually active, Digest, p. 67.

Racial and ethnic disparities in sexual risk behaviors and STDs during young men's transition to adulthood, Dariotis JK, Sifakis F, Pleck JH, Astone NM and Sonenstein FL, p. 51.

The number of recent sex partners among bisexual men in the United States, see **Sexual Behavior**.

Marriage and the Family
Is parenting associated with teenagers' early sexual risk-taking, autonomy and relationship with sexual partners? see **Teenagers**.

Maternal and Child Health
Autism risk in second children is associated with close birthspacing, Digest, p. 130.

Homelessness in year before delivery linked to reduced levels of prenatal and postnatal care, Digest, p. 266.

Oral Contraceptives
Before prescribing an oral method, many clinicians require a pelvic exam, Digest, p. 66.

Giving oral contraceptive users a one-year pill supply is linked to decreases in pregnancy and abortion, Digest, p. 129.

Jealous? Could be your pill, FYI, p. 4.

Medications not to take, FYI, p. 4.

Newest pills linked to risk, FYI, p. 140.

Predicting oral contraceptive continuation using the transtheoretical model of health behavior change, Dempsey AR, Johnson SS and Westhoff CL, p. 23.

Population Policy and Research
Unintended pregnancy rates at the state level, Finer LB and Kost K, p. 78.

Pregnancy and Childbirth
Chlamydia and gonorrhea infection may be associated with poor birth outcomes, see **STDs**.

Gestational diabetes screening rates fall short, FYI, p. 77.

Intimate partner violence and pregnancy weight gain weakly associated, Digest, p. 209.

Marriage loses the advantage, FYI, p. 217.

Miscarriage risk linked to common anti-inflammatories, FYI, p. 217.

Overweight, obesity and birth outcomes, FYI, p. 5.

Risk of early pregnancy is associated with type, timing of sexual abuse, Digest, p. 264.

Send in the clowns, FYI, p. 76.

Trying to conceive? Relax! FYI, p. 4.

U.S. pregnancy-related mortality ratio for 1998–2005 higher than for any other period in past 20 years, Digest, p. 66.

Reproductive Health
Reproductive health characteristics of marijuana and cocaine users: results from the 2002 National Survey of Family Growth, see **Sexual Behavior**.

Service Providers
A study of physician recommendations for reversible contraceptive methods using standardized patients, Dehlendorf C, Grumbach K, Vittinghoff E, Ruskin R and Steinauer J, p. 224.

Abortion incidence and access to services in the United States, 2008, see **Abortion**.

Before prescribing an oral method, many clinicians require a pelvic exam, see **Oral Contraceptives**.

Don't overdo structure, FYI, p. 5.

IUD provision may depend on family physicians' training, knowledge and attitudes, see **Intrauterine Devices**.

Modern contraceptives are supported by almost all U.S. obstetrician-gynecologists, Digest, p. 131.

What's available where, FYI, p. 76.

Women want postabortion contraception, but clinics face barriers adding services, Digest, p. 205.

Working with Dr. Tiller: staff recollections of Women's Health Care Services of Wichita, Special Report, Joffe C, p. 199.

Sexual Behavior
A comparative study of interventions for delaying the initiation of sexual intercourse among Latino and black youth, see **Evaluation of Programs**.

Adolescent overweight, social relationships and the transition to first sex: gender and racial variations, see **Teenagers**.

Coercive forms of sexual risk and associated violence perpetrated by male partners of female adolescents, see **Teenagers**.

Drug use and loneliness are linked to unprotected sex in older adults with HIV, Digest, p. 69.

For single Europeans, vacation often includes risky sexual behavior, Digest, p. 207.

Is parenting associated with teenagers' early sexual risk-taking, autonomy and relationship with sexual partners? see **Teenagers**.

Many men 75 and older consider sex important and remain sexually active, see **Males.**

Masturbation is associated with partnered sex among adolescent males and females, see **Teenagers**.

Patterns and correlates of same-sex sexual activity among U.S. teenagers and young adults, McCabe J, Brewster KL and Tillman KH, p. 142.

Racial and ethnic disparities in sexual risk behaviors and STDs during young men's transition to adulthood, see **Males**.

Reproductive health characteristics of marijuana and cocaine users: results from the 2002 National Survey of Family Growth, van Gelder MMHJ, Reefhuis J, Herron AM, Williams ML and Roeleveld N, p. 164.

Risky adolescent sexual behaviors and reproductive health in young adulthood, see **Teenagers**.

South Asians living in Britain diverge over views on first sex, Digest, p. 208.

The number of recent sex partners among bisexual men in the United States, Jeffries WL, IV, p. 151.

STDs
Bacterial STDs and perceived risk among sexual minority young adults, Kaestle CE and Waller MW, p. 158.

Better late than never? FYI, p. 5.

Blacks are hit hard by HIV, FYI, p. 77.

Childhood abuse and neglect and the risk of STDs in early adulthood, Haydon AA, Hussey JM and Halpern CT, p. 16.

Chlamydia and gonorrhea infection may be associated with poor birth outcomes, Digest, p. 132.

Family intervention may reduce HIV risk-taking in Hispanic adolescents, see **Teenagers**.

HIV risk: sexual behavior may outweigh drug use, FYI, p. 140.

Infectious syphilis soars among men, FYI, p. 141.

New, improved HIV estimates, FYI, p. 216.

Oral sex: STDs may go in both directions, FYI, p. 140.

Personal, national income positively linked to rates of voluntary HIV testing, Digest, p. 265.

Prisoners know their stuff, FYI, p. 217.

Racial and ethnic disparities in sexual risk behaviors and STDs during young men's transition to adulthood, see **Males**.

Real sex, real risk, FYI, p. 216.

STD and HIV testing behaviors among black and Puerto Rican young adults, Carter MW, Kraft JM, Hatfield-Timajchy K, Hock-Long L and Hogben M, p. 238.

The specter of HIV mortality, FYI, p. 141.

Time in jail or prison is associated with an increased risk of STDs, Digest, p. 207.

Women's injectable use associated with elevated risk for HIV infection and transmission to men, see **Hormonal Implants and Injectables**.

You can't fool the test, FYI, p. 77.

Youths with male and female partners may face increased chances of contracting STDs, see **Teenagers**.

Teenagers
A comparative study of interventions for delaying the initiation of sexual intercourse among Latino and black youth, see **Evaluation of Programs**.

A slippery slope? FYI, p. 77.

Adolescent mothers' postpartum contraceptive use: a qualitative study, Wilson EK, Samandari G, Koo HP and Tucker C, p. 230.

Adolescent overweight, social relationships and the transition to first sex: gender and racial variations, Cheng YA and Landale NS, p. 6.

After PID, what care do teenagers need? FYI, p. 4.

Childhood abuse and neglect and the risk of STDs in early adulthood, see **STDs**.

Coercive forms of sexual risk and associated violence perpetrated by male partners of

female adolescents, Silverman JG, McCauley HL, Decker MR, Miller E, Reed E and Raj A, p. 60.

Family intervention may reduce HIV risk-taking in Hispanic adolescents, Digest, p. 267.

Is parenting associated with teenagers' early sexual risk-taking, autonomy and relationship with sexual partners? Parkes A, Henderson M, Wight D and Nixon C, p. 30.

Masturbation is associated with partnered sex among adolescent males and females, Digest, p. 265.

Missed opportunities in the ER, FYI, p. 217.

Patterns and correlates of same-sex sexual activity among U.S. teenagers and young adults, see **Sexual Behavior.**

Racial and ethnic disparities in sexual risk behaviors and STDs during young men's transition to adulthood, see **Males**.

Risky adolescent sexual behaviors and reproductive health in young adulthood, Scott ME, Wildsmith E, Welti K, Ryan S, Schelar E and Steward-Streng NR, p. 110.

Teenage birthrate milestone, FYI, p. 76.

U.S. teenage birthrates vary widely by state, FYI, p. 5.

Youths with male and female partners may face increased chances of contracting STDs, Digest, p. 68.
